

back to school: biosolids basics

Northwest Biosolids
Management Association's

22nd Annual

Conference

September 20-22
Blaine, Washington

This two-day event will feature the core courses needed to excel in biosolids management. From refresher classes in nutrients, regulations and public engagement to cutting edge curriculum in greenhouse gas emissions, state of emerging contaminants and microbes and triple bottom line accounting. Dust off your book bag, find your pocket protector and prepare to engage in this rigorous program!
